

MECHANIZED AGRICULTURE FOR PRODUCTIVITY

Happy Seeder

Happy Seeder

- ❖ Possibility of sowing wheat crop just after rice harvesting i.e. option for long duration wheat and rice varieties.
- ❖ Possibility of sowing wheat in the residual moisture i.e. saving of one irrigation.
- ❖ Timely showing wheat even after long duration of basmati rice varieties.
- ❖ Crop residue as much helps in moisture and temperature conversation.
- ❖ Less weed growth.
- ❖ Improve soil health.
- ❖ Environment friendly technology to check air pollution.

Happy Seeder is one of the unique technique which is used for sowing wheat without any burning of rice residue. This technology is eco friendly with environment for the health of soil as well as it also saves water. for Sowing wheat on time the burning or Rice residue decreases the soil fertility and is harmful for human beings, Animals and environment. Therefore Landforce Turbo Happy Seeder is the most successful implement for sowing wheat in rice residue without burning rice residue.

TECHNICAL SPECIFICATION

Model	HSS9	HSS10	HSS11
No of Tines	9	10	11
No of Blades	36	40	44
Working Width	68 inch	77 inch	85 inch
Overall width	89 inch	98 inch	106 inch
Min H.P. Required	45	55	60
Hitch Category	Cat-I & II		
Gear Box	Single Speed (540 rpm PTO)		
Seed Mechanism	Aluminium type Fluted Rollers		
No of depth control wheel	Two (Adjustable)		
Separate cover for seed & fertilizer box	Available		
Tine spacing	22 mm		

**Company reserves the rights to change/amend products specifications without any prior notice.*
