- ❖ Environment Friendly

Landforce Roto Seeder is multi purposed earth tilling machine used in the preparation of seedbed & sowing seed into stubbles fields. Roto Seeder helps in proper distribution of seed & fertilizer with broadcasting process, thus provide even mixing into the soil. It is largely suitable for sowing of wheat etc. Also the seed feed-rate can be adjusted with the help of adjusting lever, which allows a greta extent of liberty to farmers. it is available with rotary tillers of 5 ft, 6 ft, 7 ft and 8 ft in size.

TECHNICAL SPECIFICATION

Characteristics	5 Feet	6 Feet	7 Feet	8 Feet
Overall width (inch)	75	82	93	104
Working Width (inch)	60	69	78	87
Weight (Kg) Approx	585	645 / 655	705 / 715	750 / 760
Hitch Type	Cat-II			
Min HP. Required	35	45	50	55
Gear Box	Multi Speed			
Side Transmission	Gear Drive			
Working Depth min / max	4 inch - 6 inch			
Number of Blades	36	42 / 48	48 / 54	54 / 60
PTO Speed (rpm)	540 / 1000			
Working Depth Control	Skids Fitted as Standard Equipment			
Seed Capacity	72	86	98	108
Fertilizer Capacity	78	92.5	105	116
Rotor Speed	180-220			
Seed / Fertilizer Distribution.	Broad Casting			
Seed / Fertilizer Metering Dev.	Fluted Roller			
Metering Device	Metering Device Drive is from Backside Mounted Ground Wheel with Spring Loaded			
Ground Wheel	One 24" Diameter roller with spring to maintain contact with ground
